ITEMS OF MAJOR INTEREST - 10 - 16 JULY 1982

Agency's Presentation to the House Committee on Foreign Affairs Concerning International Atomic Energy Agency Safeguards. On 14 July 1982 OGC attorneys accompanied DDI analysts who briefed Representative Clement Zablocki, Chairman of the House Committee on Foreign Affairs, and Representatives Jonathan Bingham, Richard Ottinger, and Robert Lagomarsino on the subject of International Atomic Energy Agency Safeguards. This briefing had been offered as a way to provide the Congressmen with relevant intelligence information without providing direct access to DO raw intelligence reports. The briefing was well received and Chairman Zablocki indicated that he is satisfied with the Agency's response. Representatives Bingham and Ottinger are expected to ask Chairman Zablocki to reconsider their request for direct access to the documents, but we are hopeful that the matter has been resolved.

DCI WEEKLY REPORT

In May 1982 the President's Intelligence Oversight Board (PIOB) requested of the IG copies of several in-house Agency documents relevant to employee conduct. These were provided. In a letter to me this week, Bob Turner, PIOB Counsel, suggested several minor changes and additions to one of these documents. Revision of the regulatory issuance in which Turner is interested has been under way along the lines he suggested. One of his other suggestions makes sense and is easily adoptable. The other will be addressed separately. I am so advising Turner.

We continue to uncover new material on former Agency contacts with former Department of Defense officials who are of current investigatory interest to Justice. None of these documents are damaging to the Agency; they are, in fact, helpful. OGC will brief Justice on their content.
